Chain 76 *Philly*

**Hands-on workshop homework
(please complete before class)**

OCTOBER 12, 2018, 9:15am
WeWork 1900 Market Street, Philadelphia
https://Chain76.org

1. Buy a laptop computer (not a Chromebook, not an tablet, preferably a Mac) and bring it to class
2. Create a GitHub account, fill in ALL profile information, and a photo
3. Login here with your GitHub account and say hi **https://gitter.im/erc721class/Lobby**
4. If you get stuck at any time, Google first and then ask in that Gitter room
5. Find and install a text editor like Atom and make a "hello world" HTML file
6. Install Chrome or Brave browser, open that HTML file
7. Add your name here

   https://github.com/erc721-class/student-list/blob/master/README.md

   (edit that file, create pull request)
8. In your pull request, request to join the organization
9. Create a separate Chrome profile for playing with cryptocurrency
10. Do not access Facebook on this profile (if you already did just delete profile and try again)
11. Get an obnoxious-color browser theme for that profile
12. Do not skip the prior step
13. Install MetaMask extension in that profile (unnecessary for Brave)
14. Create four accounts in MetaMask
15. Switch MetaMask to the Ropsten network
16. Find the Ropsten faucet, withdraw Ether ten times (so that's 10 Ether)
17. Send the money evently between your accounts
18. You're done, bring your resume/CV to class, engaged students will get job offers
